# Findings

Clinical Task	Frequency				
	Never	1-2 times	3-5 times	6-10 times	10+ times
<b>ASSESSMENT</b>					
<b>Adult</b>					
Assessing patient for pain	10	213	453	416	2819
Obtaining a comprehensive health history	30	117	396	1214	2381
Obtaining a focused health history	20	60	281	86	2035
Performing a comprehensive physical exam	57	411	573	582	2736
Performing a focused physical exam	19	8	176	813	2925
Performing a mental health assessment	115	225	1071	399	2129
Performs age-appropriate screenings (e.g., developmental, hearing, vision, oral health, genetics)	11	287	835	475	2378
<b>Geriatric</b>					
Assessing patient for pain	24	233	498	368	2817
Obtaining a comprehensive health history	34	49	1013	468	2377
Obtaining a focused health history	24	407	74	838	2596
Performing a comprehensive physical exam	37	62	452	659	2720
Performing a focused physical exam	31	45	473	790	2031
Performing a mental health assessment	147	202	573	503	1775
Performs age-appropriate screenings (e.g., developmental, hearing, vision, oral health, genetics)	91	113	610	486	2639
<b>Pediatric</b>					
Assessing patient for pain	69	138	1306	315	2112
Obtaining a comprehensive health history	92	111	1017	671	2049
Obtaining a focused health history	47	67	303	965	2559
Performing a comprehensive physical exam	71	100	854	731	2404
Performing a focused physical exam	44	61	868	1413	2492
Performing a mental health assessment	444	671	945	562	1298
Performs age-appropriate screenings (e.g., developmental, hearing, vision, oral health, genetics)	76	283	445	1015	2120
